**BREAK
THE
CHAINS**

WHAT DO ANARCHISTS BELIEVE?

WE THINK PARLIAMENTARY DEMOCRACY IS A SHAM.

Once every five years you get to put a cross on a piece of paper. It makes no difference where you put your cross -Lib-Dem - Tory or Labour - whatever government we get works for the benefit of the powerful and the rich, not us.

WE ARE ANT-CAPITALISTS.

Capitalism is for the benefit of the greedy and the few; the global corporations and the banks. Capitalism makes them very rich and powerful and exploits and represses the rest of us. It causes untold misery to billions of people every day. Every so often capitalism begins to self-destruct and when this happens things get even worse as we begin to lose our jobs, our benefits and the services we rely on are cut. But we don't want to make capitalism a bit nicer; we want to see capitalism destroyed and replaced with something better.

WHAT DO WE PUT IN ITS PLACE?

Anarchists are opposed to societies which give power and control to a few people at the top and leaves the majority of people at the bottom, voiceless and powerless. Everyone should get an equal say in discussing, planning and working together for the benefit of all.

There are no quick or easy answers and we don't think it is up to anarchists to dictate what will happen, **THAT IS UP TO YOU!!**

THE NORTHEAST ANARCHIST GROUP is a collection of people from across our region who have decided to work together to create an effective anarchist presence in the area. This leaflet is only a very brief guide to anarchist ideas so if you want to find out more contact:
